ABOUT

Passionate and collaborative early-career software developer with hands-on experience in full-stack web development, testing, and agile delivery. I thrive in team environments where innovation, inclusion, and continuous learning are valued. **Eager to contribute** to impactful, customer-focused solutions using clean and iterative code. **Enthusiastic to learn and grow** as a software developer, combining purposeful technology with strong engineering principles.

EDUCATION

- Bachelor of Computer Science | SWINBURNE UNIVERSITY OF TECHNOLOGY****FEB 2023 – OCT 2024**
 - Majoring in **Software Development**
- Diploma of IT | SWINBURNE UNIVERSITY OF TECHNOLOGY****FEB 2022 - OCT 2022**
 - Cumulative **GPA**: 3.625 / 4

RELEVANT EXPERIENCES & PROJECTS

- Australian Unity | Data Admin Customer Service****NOV 2025 – APR 2026**
 - Handled inbound and outbound calls** assisting clients and families with Home Aged Care enquiries, service information, onboarding support, and issue resolution while maintaining a high standard of empathy and professionalism.
 - Performed precise data entry, record updates, and data remediation across internal systems to ensure accuracy, compliance, and alignment with aged care regulatory requirements.
 - Managed shared inboxes** by triaging requests, prioritizing urgent cases, and coordinating responses with care teams, case managers, and operations staff.
 - Supported customer service delivery** by resolving administrative and service-related enquiries efficiently, ensuring clear communication and positive client experiences.
 - Collaborated cross-functionally** to verify information, track requests, and maintain up-to-date records that support timely care services.
 - Contributed to process improvement** by identifying data inconsistencies, reporting system issues, and helping maintain documentation standards in a fast-paced, detail-driven environment.
- PEXA | Software Developer Intern****JAN 2025 – JUN 2025**
 - Collaborated with QA teams** to test features and bugs using tools such as Splunk, Postman and Insomnia include activities such as API testing, playwright E2E automation testing, PVT etc.
 - Collaborated with Developers** to build features and resolve bugs using tools such as Springboot, Kotlin, AWS and React.
 - Acquired proficiency** in team business processes and technologies in a Domain-Driven Design architecture.
 - Developed comprehensive onboarding documentation** to facilitate seamless integration of new team members.
 - Generated detailed reports** on features, bugs, and testing outcomes to inform stakeholders and guide development.

- **Thrived in a fast-paced, agile environment**, demonstrating proactive learning, attentive listening, and effective execution.

ACHIEVEMENTS:

- **Internship extended by 3 months due to exceptional performance and value delivered.**
- **Runner up for monthly core value nomination representing PEXA's value of being "Better Together".**

AUBOT PTY LTD | Software Developer Intern

Remote | **AUG 2023 – OCT 2023**

- Improved Aubot's educational website's frontend UX and UI using React, Material UI to boost user experience satisfaction
- Debugged and fixed bugs found on the website to ensure a sound and successful launch
- Implemented around 1000 lessons and exercises using Google Script, Google Sheet and Postman that are used to introduce and educate to the world of coding to students worldwide and fasten the launching process

VIZZARRI FARMS | Pick Packer

Pakenham, Victoria | **OCT 2022 – MAY 2023**

- Co-operated and coordinated within a team to produce efficient desired outcomes
